

Amendments to the Drawings:

The appendix contains attached sheets of drawings including changes to Fig.s 1, 3 and 4. The changes to these Fig.s are shown in red on the annotated sheet.

The replacement sheet is submitted informally to determine the Examiner's approval of the substance of the drawings. Formal drawings will be submitted upon Examiner's approval.

In Fig. 1, a block representation of the printer is shown with the lead line to reference numeral 34. The reference numeral has been added to the specification.

In Fig. 3, a block representation of the connection of the power cord to the compartment 10 is shown, along with the adapter. The connection and cord have a lead line to reference numeral 57 and the adapter has a lead line to reference numeral 56.

Fig. 4 which was submitted as a copy of a photograph has been rendered as a line drawing. An additional reference numeral and lead line are used to denote the door latch.
